

ONNX became an LF AI Foundation
Graduation Project.

Now what?

Creating sustainable oss projects requires hard work

Governance and Membership

- Incorporation, Tax status, Bylaws, Member Agreements, Antitrust, etc
- Ongoing business development and membership recruitment

Development Process

- Technical Decision Making
- Project Life Cycle
- Release Process

Infrastructure

- Custom infrastructure using open source best practices
- Security and reliability

Ecosystem Development

- Marketing
- Events
- Training

IP Management

- Code Provenance and License compliance
- Trademark management
- Legal defense and Collaboration

What's been in progress?

- › Independent neutral home, vendor-free environment
- › Dedicated staff for LF AI projects for best practices, questions, support
- › Formal charter, governance guidelines
- › Transfer of ONNX trademark from FB to the Linux Foundation
- › Basic infrastructure - mailing lists, wiki, zoom bridge, group calendar, etc.
- › Transfer of ONNX social media accounts to the Linux Foundation (Community managed via shared access w/ONNX Steering Committee)
- › LF AI event participation opportunities, support for LF AI Day ONNX Virtual Meetup
- › License scanning (bi-monthly)
- › Dev analytics build out: <https://lfanalytics.io/projects/lfai%2Fonnx/dashboard>

Where we can help?

Event Management

- We help your project build a community with face-to-face interaction and knowledge sharing
- LF AI hosts several LF AI Days per year in different geographies that encourage project involvement
- LF AI also hosts LF AI Meetings with the Linux Foundation Open Source Summit (NA, EU, Asia)
- LF AI manages Open Source AI Track - 3-day event - at Open Source Summit (NA, EU, Asia) focused on open source AI, ML, DL
- LF AI provides a booth at major LF events that our hosted projects use for demo purposes and to connect with their users
- [Travel funding](#) is available through the Linux Foundation for non-corporate-backed developers and to increase attendance of women and other underrepresented minorities
- LF AI assists with sponsorship leads, media introductions, co-location opportunities, and marketing of events

Where we can help?

Marketing Services and Programs

- Blog, white papers, posters, etc.
- Creative work

Marketing Communications

- Promote project news and milestones through other channels: journalists, analysts, and news releases/blogs
- Develop reports, surveys, success stories, and case studies
- Social media channels (Twitter, LinkedIn)

Where we can help?

Legal Services

- CLA and DCO systems that integrate with GitHub
- Access to LF AI and LF staff should any legal questions arise
- Hosting the trademarks of the projects
- Bi-monthly compliance scans

Regional offices

- We have professional staff in China and Japan that can help your project present at local meetups and events
- We also host an LF AI Day in China annually and offer a booth at major AI events as recommended by our members in that geography

Where we can help?

Training

- World class training organization - online and f2f - edX platform
- <https://www.edx.org/school/linuxfoundationx>

Collaboration opportunities with LF AI other projects

- ML Workflow effort
- Identifying opportunities as part of incubation process

Collaboration opportunities with other umbrella Foundations

- The LF hosts multiple umbrella foundations (CNCF, Auto, CDF, Edge, Hyperledger, etc.) and there are many intersections points with these umbrella foundations
