LF AI DAY

**ONNX Community Virtual Meetup Silicon Valley 2020**

April 9, 2020 • 9:00 am - 12:00 am PT • via Zoom

Dear Jacqueline,

Thank you for attending the first LF AI Day ONNX Community Virtual Meetup held on April 9, 2020 via Zoom. This meetup was hosted by ONNX, IBM, and the LF AI Foundation (LF AI); we hope that you found the content informative and valuable. The primary goal of this gathering was to bring together contributors and partners working on ONNX to collaborate in order to foster continued improvements to ONNX, and to make it as useful as possible to the open source community at large.

We would also like to thank you for your flexibility in shifting to a virtual format for this meetup due to Novel Coronavirus situation (COVID-19) challenges. This shift allowed us to ensure the safety of our event participants and staff while still connecting the ONNX Community. We look forward to connecting with you in person at a future meetup.

In order to make the next meetup even more successful, welcome you to share feedback via [Gitter](#). We thank you in advance for your comments and suggestions; and we assure you that each will be given careful consideration for future events. Please join the ONNX mailing lists below in order to stay connected on the latest project news. The details on the meeting recording and other applicable content will be shared via these mailing lists soon

Your participation helped make this meetup a success, thank you! We hope that you continue to engage and contribute to ONNX and ONNX related projects.

Thank You,  
ONNX, IBM, and LF AI
