Send invitation to TAC members who do not have TAC call on their calendar

Chat:
00:28:48 Jim Spohrer: very cool, very fast :-)
00:30:15 Nancy Rausch: Interesting new approach!
00:32:04 Ibrahim Haddad: Wonder if any of this will make it to open source - as enabler for commercial services and products in the future
00:34:30 Amit Kumar-TechM: Looks interesting, interested to understand how it stays infra agnostic and independent, and how would it help open source and community
00:43:08 Ibrahim Haddad: Q: other than Milvus, have you explored other LF AI & Data projects that might be potential for integration?
00:43:34 Nancy Rausch: Would any of the algorithms you are developing be ones that could be put into open source?
01:04:42 David C Martin: I think the introductory image which does not include production feedback is insufficient to discuss MLOps
01:09:20 Saishruthi Swaminathan: Thanks everyone for the support and thanks David for the comment.
01:12:45 Amit Kumar-TechM: Hi Jim,, Acumos was moved to august 26 for annual review.
01:13:55 Nancy Rausch: Thanks Jim!
