- Be logged into LF AI & Data Foundation Groups.io
- Be subscribed to the sub-group(mail-list) you're interested in (such as events@lfaidata.foundation)
- Thereafter, you will see all the calendars for the sub-groups you subscribe to under your LF AI & Data Foundation Calendar via Groups.io
- **You can also view the entire LF AI & Data Events Group Calendar via Wiki whether you are a member of the sub-group(mail list) or not**

Subscribing to LF AI & Data Events Group Calendar

You can directly subscribe to the LF AI & Data Events Group Calendar to stay in sync with meetings and events.

NOTE: When you receive a meeting invite in your inbox for a meeting scheduled within Groups.io (example Events meeting invite available here) you can directly add the meeting (.ics file) to your calendar tool. However, the only sure way to ensure that your calendar stays in sync w/ the LF AI & Data Events Group Calendar is to **subscribe**. DO NOT RELY ON A .ics FILE in any groups.io meeting invite as: 1) An ics file creates a static snapshot of the meeting at that point in time. 2) Updates and cancellations do not get propagated via this method. 3) You are guaranteed to have issues with seasonal time changes.
