TSC Meeting

To ALL NNStreamer-interested people: please feel free to add comments.

Agenda, TSC Meeting 2, 2022.5.

- Sub Projects Approvals
  - nnstreamer-api or "API"
    - We may need to invite SNAP developers as committers and co-maintainers of this sub-project.
    - Do we need to separate per programming language?
      - API-C, API-DotNET, API-Java, API-CPP and so on? or everything in API.git?
  - nnstreamer-subplugins-*: CANCELED
  - nnshark
  - nntrainer may need their own tech-group. (we have new potential contributors who are interested only in nntrainer)
  - aitt (nnstreamer-edge extended)
- Committer list update
  - add: Hyeonseok Lee, Yelin Jung, (and more coming)
  - remove: ...
- Suggestion:
  - "senior committer" or "reviewer": (sangjung woo, jaeyun jung, +a)
  - Sub project maintainers: jijoong moon (nntrainer), geunsik lim (TAOS), TBU (aitt), sangjung woo (api), TBU (trix-engine/npu)

- Invite observers (SNAP developers, Cambridge AI researchers, ..., NXP, Fainders, Klleon, TTT, ...)

- Postponed items (no details available... resume this if we get details before TSC meeting)
  - Accept suggestions on external activities
    - Workshops with university labs
    - Which conferences/workshops to submit papers/posters/talks
