OpenLineage Home

blocked URL	GRADUATE	OpenLineage is an open platform for collection and analysis of data lineage. It tracks metadata about datasets, jobs, and runs, giving users the information required to identify the root cause of complex issues and understand the impact of changes. OpenLineage contains an open standard for lineage data collection, a metadata repository reference implementation (Marquez), libraries for common languages, and integrations with data pipeline tools. GitHub: https://github.com/OpenLineage

Complete these tasks to get started

- [x] Edit this home page - Click Edit in the top right of this screen to customize your Space home page
- [ ] Create your first page - Click the Create button in the header to get started
- [ ] Brand your Space - Click Configure Sidebar in the left panel to update space details and logo
- [ ] Set permissions - Click Space Tools in the left sidebar to update permissions and give others access
